

# My tccc ('The Compute Center Constitution') USC Interpretation Applied To 2025 Q1 Political US Events

Kevin A. Sensenig    Draft 1.02    2025 May 4 Sunday

To Wit!

The United States (50X and Collectively) can argue (in Federal Court and in States' Courts) and assert everywhere applicable, strategize, and act to sustain, deepen, and further federal Law, federal such doSomethings, federal rights, citizens' rights (of the United States and of each State), natural freedoms, such sustained, deepened, and enhanced, and more, and also in a genuine freedom-liberation-liberative manner and fact – the following included:

1.1. Federal Law that is such, and their agencies and doSomething structures, organizational arrangements, and processes, workers, and facts, all effective, and carried out via routine execution, as one would in federal government and agencies, and also this by Law and by the Executive Branch. That is the meaning, that it means for this, the United States Constitution, the Supreme Law Of The Land!

1.2. The States (each one and collectively) obtain all of this.

2.0. Each and all States' citizens (each State and collectively) have certain federal-State citizens' rights, federal rights, and State citizen rights. All this is noumenal, interdependent, and elegant – and real-world.

3.0. States' citizens as the citizens of the United States.

That is, also, and furthermore! The following. I myself, a citizen of the State of PA, and a citizen of the United States, have rights, protections, and right to doSomethings, federal and federal-State, and States', as do each citizen(s) each and all citizens of the given State and United States. All such Persons, freedom free Persons, citizens of the United States and of each given State for that Person each, and collectively, have rights, protections, and right to doSomethings by federal, States', and federal-States' Statute and Law and its clear derivatives; and right to those rights, federal rights, and States' rights, and rights and Powers to those rights and doSomethings; including federal-States' Laws and doSomethings, and States' citizens' protections and rights and doSomethings; and right and Power to United States citizens protections; and this all as applies, to each Person under the jurisdiction of the United States, as a privilege of such, as it applies.
